Berlin, Nov. 29.—August Bungert's new symphony, "Zeppelin's First Voyage" will be produced under the direction of Prof. William Res at Coblenz Wednesday. The theme describes the prepara-

blie horn as an orchestral instrument. The theme describes the preparations for the count's ascent in his first dirigible balloon, the smooth flight, the applause of the multitudes, the mountains and valleys, the cities, the thunderstorm, the landing, and finally the destruction of the aero-craft by fire.

Gustav Mahler's latest symphony will be ready for production early in the new year.

Health And Beauty Helps

Miss Anxiety: It is a bitter confession for our sex to make, but we have to admit that the girl who takes the best care of her complexion and general appearance has the best chance of getting a good husband. You should not be so careless about those blackheads and large uneven pores below your eyes. If you wish to get rid of these troubles, get an ounce of aimozon from your druggist and dissolve it in 15 pint of cold water and add 2 teaspoonfuls of glycerine. Stir briskly and let stand. Apply as you would any complexion cream. I have had friends tell me it was splendid for removing wrinkles. It is unexcelled for massaging, and will leave the skin smooth and pliable. This cream contains no oll or anything that will promote a growth of hair on the face, and I recommend it for chapped face and hands, also for removing tan and freekles. areless about those blackheads and

Even though other remedies have failed, try this: Dissolve 4 ounces of parnotis in a pint of hot water and take a table-spoonful before each meal. This remedy is perfectly harmless and does not require dieting. I am sure it will do you a world of good and enable you to regain your former stylish, slender figure.

Harriet W.: If your eyes feel tired and are dull ad inflamed, you need an eye tonic. Dissolve an ounce of crystos in a pint of water. One or two drops of this in each eye every day is all that is needed to strengthen your eyes and make them bright and sparkling. This tonic will not smart or burn and is a great ald to those who wear glasses. It makes the eyes appear brilliant and full of expression. A friend of mine, who is on the stage, tells me she keeps her much-admired eyes beautiful by using this tonic. I find it very strengthening to weak, inflamed, dull and tired eyes and for granulated eye-lids.

Miss G. F.: Your letter really amused me. You are entirely too fleshy to bricharming. It is no wonder your sweet.
